When you start a business it can seem there are hundreds of things to consider and weigh up. Irrespective of the type of business you set up the one thing you need to get right are the legal aspects. This session is designed to ensure you comply with the law and have all the usual documents to enable you to trade both sensibly and commercially. The sort of things we might cover are:

- Legal entity – implications and set up
- Terms and Conditions of business
- Essential contracts – employment, sales etc
- Leases, property issues
- Intellectual property, patents etc

Exactly what is covered depends on your own circumstances but a little legal help at the outset will be money well spent.
